COVID-19 Testing for Essential Workers

ESSENTIAL WORKERS: We are offering COVID-19 testing to all essential workers, even those without symptoms*! If you are giving back to our communities, we want to give back to you! We are asking all essential workers, including healthcare workers, first responders, postal workers, pharmacy workers, food and agriculture workers, grocery employees, public works and other infrastructure employees, please reach out to us at www.p1uc.com or call us directly at 855-349-2828.

We have reserved COVID-19 testing for essential workers every day!

To receive a COVID-19 test, you must complete a medical evaluation through a Virtual Visit or at one of our centers prior to receiving a test.

Patients do not need to be current patients of PhysicianOne Urgent Care but must be medically evaluated by PhysicianOne Urgent Care staff in advance.

To schedule your medical evaluation or Virtual Visit, please click here: https://physicianoneurgentcare.com/find-us/check-in/ and select your state of residence to schedule your Virtual Visit, or, call 855-349-2828 for assistance with scheduling.

PLEASE NOTE: Every patient and circumstance are different. If you have symptoms it is important to schedule a Virtual Visit for medical evaluation. The provider will evaluate the combination of symptoms and exposure risk together during the Virtual Visit and prior to testing.

Thank you for your service!

*People without symptoms may receive testing and each result must be interpreted carefully. A negative test does not provide 100% assurance that the person is not currently transmitting the illness or will not transmit the illness in the future.
